

INVISIBLEDOOR
directly from the factory to you

www.invisible-door.com

Invisible-door produces and sells directly online frameless hinged doors, flush to the wall sliding doors, invisible access panels and invisible wardrobes.

Our products are the best solution to close and hide any recess or closet (meters, headers, inspectionable spaces, concealed closets), or to build a flush-to-wall door perfectly integrated. Closures are MADE TO MEASURE and delivered ready for varnishing or already lacquered, both for masonry and plasterboard walls. Flush-to-wall access panels can be opened from the outside thanks to a push-pull opening

system. Invisible doors, instead, can be opened from both sides and come standard with a magnetic lock suitable for any handle. The GALLERY shows some samples of standard models and the SHOP will allow you to order online, and in just a few clicks, the panel or the door you may need. For further information or to request a custom quote please contact us at info@invisible-door.com

Hinged doors

INVISIBLEDOOR
directly from the factory to you

Hinged door

The Invisible-door flush hinged door is the ideal product for a seamless wall to door continuity, thanks to a frame perfectly integrated with both masonry and plasterboard, to the use of rollaway adjustable hinges and total lack of external door frames

Finishes

It is proposed standard with a protective water based prime coat, leaving up to the client or designer's expressive freedom the decision if finishing it like the wall it is built in or enhancing its geometry with special finishing and covering. Upon request the door is supplied lacquered or in wood.

Available sizes

Our invisible hinged door is available in standard sizes (600-700-800 mm width and 2100 mm height), guaranteeing maximum convenience, and in customized sizes for total design freedom. Full height models are also available, as well as models without upper beam, pivot doors and double door panel types.
